

## Bulletin – Spain Strike

### PLEASE BE ADVISED OF THE FOLLOWING INFORMATION:

#### Update 31/Mar

The situation remains stagnant (the calling association maintains the strike and other associations no longer). There are still areas affected by roadcuts and demonstrations (especially in some areas as indicated by the last colour map sent)

You can see status of parcels delayed on IT tracking.

We are hopeful that this week they will finally give in and call off the strike (the government has presented a plan to help the sector)

We will keep you updated.
