

SPAIN – STRIKE
14TH NOVEMBER 2022

Please be advised of the following information received from our office in Spain: -

A strike/stop of road transportation services has been called in Spain by a carrier platform starting next Monday Nov 14th

Our domestic network and main linehaul providers are not following this strike and this strike is not seconded by any of the recognized transport association, although we have a history of other strikes called by same platform that they produced disturbances on all roads, specially focused on main cities and logistics areas affecting the service.

Please take into consideration that there may be delays in pick-ups, deliveries and linehauls.

We will inform you about the situation and progress and we will try our best to make sure all shipments are updated (tracking events)

If you require any further assistance, please email our cs team:-
